

A form letter is one that has the exact same words throughout the document and is signed and sent as individual pieces of correspondence or sent with multiple signatures. If a form letter has additional comments added in typed or handwritten format, it will be considered a separate and independent letter.

This list of signatories relates to the following comment which is entered only once in the comment Database.

ID	Topic	Letter's first 5 words and last 5 words are:	Total # of signatures	Date Updated

RE: Oppose Go Triangle Light Rail

As a tax paying citizen and homeowner in Durham, NC, I am deeply troubled by the waste of my federal, state and local tax dollars as they will be allocated to the Durham/Chapel Hill Go Triangle Light Rail project.

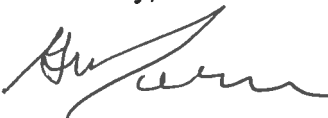

I strongly oppose Go Triangle Light Rail. This project will have a negative monetary impact on my neighbors and me in Durham and Chapel Hill through taxation because taxes will be increased yearly and wasted on an inefficient transportation system. The future way of life for this culturally rich and beautiful area of Chapel Hill will not be improved by Go Triangle's unfulfilled 'dream' of the light rail and the area will still need reliable transportation.

Below is a summary of the estimated cost of Go Triangle Light Rail:

- A. \$1.82 BILLION— Total estimated cost in today's dollars
- B. \$107 MILLION PER MILE of 17 miles of track for construction.. (The completion of the light rail is not projected until 2025.)
- C. 80% ridership costs will be paid by the LOCAL TAXPAYER. (A total of \$12.8 MILLION in annual tax liability to Durham and Chapel Hill residents.)

I implore you to oppose this type of wasteful spending of our hard earned tax dollars and instead of raising taxes, lower them.

Sincerely,

Gilbert Turner

I strongly oppose Go Triangle Light Rail. This project will have a negative monetary impact on my neighbors and me in Durham and Chapel Hill through taxation because taxes will be increased yearly and wasted on an inefficient transportation system. The future way of life for this culturally rich and beautiful area of Chapel Hill will not be improved by Go Triangle's unfulfilled 'dream' of the light rail and the area will still need reliable transportation.

Below is a summary of the estimated cost of Go Triangle Light Rail:

- A. \$1.82 BILLION— Total estimated cost in today's dollars
- B. \$107 MILLION PER MILE of 17 miles of track for construction.. (The completion of the light rail is not projected until 2025.)
- C. 80% ridership costs will be paid by the LOCAL TAXPAYER. (A total of \$12.8 MILLION in annual tax liability to Durham and Chapel Hill residents.)

I implore you to oppose this type of wasteful spending of our hard earned tax dollars and instead of raising taxes, lower them.

Sincerely,

Zip: 27517

RE: Oppose Go Triangle Light Rail

As a tax paying citizen and homeowner in Durham, NC, I am deeply troubled by the waste of my federal, state and local tax dollars as they will be allocated to the Durham/Chapel Hill Go Triangle Light Rail project.

I strongly oppose Go Triangle Light Rail. This project will have a negative monetary impact on my neighbors and me in Durham and Chapel Hill through taxation because taxes will be increased yearly and wasted on an inefficient transportation system. The future way of life for this culturally rich and beautiful area of Chapel Hill will not be improved by Go Triangle's unfulfilled 'dream' of the light rail and the area will still need reliable transportation.

Below is a summary of the estimated cost of Go Triangle Light Rail:

- A. \$1.82 BILLION– Total estimated cost in today's dollars
- B. \$107 MILLION PER MILE of 17 miles of track for construction.. (The completion of the light rail is not projected until 2025.)
- C. 80% ridership costs will be paid by the LOCAL TAXPAYER. (A total of \$12.8 MILLION in annual tax liability to Durham and Chapel Hill residents.)

I implore you to oppose this type of wasteful spending of our hard earned tax dollars and instead of raising taxes, lower them.

Sincerely,

Ms. Cyndy Yu Robinson
